Re: Federal Agencies' Review of Oregon CZARA

Date: September 30, 2014

Per our earlier commitment to you, below is an update on our review of comments on our December 20, 2013, proposed action on Oregon's Coastal Nonpoint Program, as well as the development of responses to those comments. Since our report in late July, NOAA and EPA have:

- Held regular meetings for various groups to continue inter-agency discussions on Oregon's program in consideration of the public comments received and the State's response. Issues discussed included: new development, OSDS, forestry-landslides, forestry-pesticides, forestry-riparian, forestry-roads, and agriculture:
 - Topic team (weekly or more frequently): to discuss public comments, state submission, and potential responses to comments and changes needed to proposed decision rationales.
 - Technical team (weekly): to share progress of topic teams, get feedback from full technical team, identify specific legal questions or decision points for legal and management teams, respectively, and ensure coordination among topic teams.
 - Managerial team (monthly through August, weekly during September): to provide programmatic guidance to technical team and weigh in on critical decision points.
 - Managerial/Legal/Technical team (monthly through August, weekly during September)
- Drafted summary comments synthesizing all comments received.
- Drafting responses to summary comments and updating decision rationales. We are winding up work on responding to the general comments regarding Oregon's Coastal Nonpoint Program as well as our work on the new development, OSDS, and forestry-riparian issues and moving forward with our work on the remaining issues.

We believe we are on schedule to meet our January 30, 2015, decision deadline. If you have any questions, feel free to contact me via email or at 206-553-1906 or Joelle Gore at joelle.gore@noaa.gov or 301-563-1177.
